-----Alumni Meet -----

"COSMOS - Alumni Meet 2024"

School hosted its inaugural alumni gathering, COSMOS, on December 22, 2024. The event reunited former students from batches 2009-10 to 2014-15, fostering nostalgia & unity.

Internationalism

Ms. Jagmeet Kaur Chhabra (HOD Science Department), one of the five teachers from the Choithram Education Unit visited Creative Academy School, Kirtipur, Nepal, as part of a teacher exchange program. This cross-cultural exchange served as a platform for fostering professional development, enabling teachers to benefit from mutual learning and the sharing of innovative teaching methodologies. The program aimed to enhance global competencies among educators.

A delegation of CSNC students accompanied by Mrs. Pramila Sharma (Activity Coordinator) visited Tan Da High School, Vietnam for the second phase of the Reciprocal Student Exchange Program. The visit was a cultural exchange, fostering understanding and creating lifelong memories. The students visited temples, pagodas, and tea gardens, and participated in cultural presentations and cultural activities. The experience inspired the students to embrace cultural diversity.

Celebration

CHRISTMAS DAY

A joyful and festive celebration was held at Choithram School North Campus, aiming to spread joy, kindness, and festive cheer among students while promoting the values of love, compassion, and inclusivity.

Activities

Fancy Dress Competition
December 26, 2024
class III to V

Inter House Natak Competition
December 20, 2024
class III to V

Vendors Day
December 13, 2024
Montessori

"Eco Club Activity for Indore Climate Mission"
On December 07, 2024, our students participated in an engaging activity, exploring sustainable living & conservation, introduced by Eco Club Head Ms. Namrata Sharma Upadhyay.

Awards & Achievements

In the Virtual Model United Nations Framework Convention on Climate Change 2024, the 'Best Position Paper' was secured by Aariz Qureshi and Anvesha Rishi. The 'Best Inquirer' were Anvesha Rishi, Aariz Qureshi and Archit Sharma.

The students of our School bagged awards in the Inter School

Painting Competition organized by Art of Creation

- Samarth Wadhvani (X A) secured 1st position in the Unique Art category
- Kavya Sharma (IX A) secured 2nd position.
- Chelsea Yadav (IX A) achieved 3rd position
- Parth Namdev (VIII C) received Gold Medal
- Lakshita Gupta (VII A) won Gold Medal

Our Junior Kho-Kho Team of Boys secured 2nd position in the Inter School Kho Kho Tournament held at Anusuiya School.

Our School participated in St. Mariam Thresia Sub Junior Athletic Meet held at Holy Family Convent School and received awards.

- Avya Shah (Class IV) Gold medal in 50m Race.
- Parvi Singh (Class V) Silver medal in Long-Jump.
- Manan Patidar (Class V) Bronze medal in Long-Jump.
- Nishtha Gupta (Class V) Silver medal in Hurdle Race.
- Aryansh Gupta, Avik Goswami, Nivesh Gajbhiye and Reyansh Gupta won Gold-Medal in Boys Relay Race.

Shriyanshi Gupta and Aarush Jain (class VIII) made our school proud by getting the first position in the Inter School Shri Madh Bhagwad Geeta Quiz Competition held at Sant Asaramji Gurukul School.

Relevance of Ancient Indian History in the Modern World

India is one of the fastest-growing economies globally. Its rich history fascinates the world, especially in fields like mathematics and architecture. However, India's achievements were concealed over time due to foreign invasions, colonization, and the suppression of indigenous knowledge. Very few people know about ancient India's highly advanced number system which invented the concept of zero, the decimal system, algebra, trigonometry, amongst others. The largest number used by the Romans was 3,999 while Ancient Indians utilised numerals as large as 1053 long before 5000 B.C. Sushruta, renowned as the 'Father of Surgery,' invented the concept of plastic surgery. Many important European inventions were made in India long before Europe existed. A prime example is the discovery of gravity made by the Indian scholar Brahmagupta in 628 CE. Long before modern scientists, Bhaskaracharya calculated the Earth's revolution around the Sun as 365.258756484 days. Apart from all this, chess, universities, rocket artillery, geometric tools etc. were all invented in India. It can be concluded that ancient India was a centre of intellectual achievements that shaped the modern world, yet these contributions are often overlooked. We must share this knowledge to ensure it isn't lost, as understanding our past is key to a brighter future.

-Anika Salviya VIII A

Nature

Nature, Nature, Nature,
Everything is Nature,
The air surrounding us is Nature,
The trees surrounding us is Nature,
Nature cares for us,
But we don't care of Nature,
When Nature will be rude for us,
The lesson will be taught to us.
Nature gives us fresh air to breath,
Beautiful flowers in trees,
Oh my God!
How can I explain you in brief.
Nature gives us many things,
We should care of it,
And if we don't care of it,
We will die for it.

- Arjun Tambe V C

Never Give Up

Someone said you cannot do it,
But I said can you prove it?
Then a voice came from outside,
With a man standing left - hand side.
He said, I can prove it,
By making it easy to do it.
Just focus on your task up and up,
But remember to never give up.
Then you can prove it,
By making it easy to do it.
Just focus on your task ahead and ahead,
And make the task your best friend.
Then everybody will cheer - you leveled up,
But you will say just because I
Never Gave Up

Indian Education System

Education, a vital tool for skill-building and knowledge, has always held great significance. In Ancient India's Gurukuls, students were taught subjects ranging from Sanskrit, to Economics, Medicine, and even Warfare. During British rule, an education system was introduced to create a loyal workforce. Today, India's 10+2 education system offers 10 years of foundational learning across diverse subjects, followed by two years of specialization in streams like Science, Humanities, or Commerce. Indian Schools emphasize discipline and structured learning. Recent years have witnessed transformative changes, such as the inclusion of coding, promotion of sports, and focus on practical knowledge. Yet, higher education often channels students into specific careers, with few pursuing fields like Astrophysics, Biomedical Engineering, History, etc.

By fostering creativity and allowing students to explore their passions, we can create a truly remarkable learning environment.

मेरी प्यारी कुक्की

अब आप 10 साल की होने वाली हो। पता ही नहीं चला की कब तुम इतनी बड़ी हो गई! ऐसा लगता है कि कल ही की तो बात है। जब तुमने अपने नन्हे नन्हे कदमों से पूरे घर को सर पर उठा लिया था! ऐसा लगा था मानो पूरी दुनिया मेरे हाथों में समा गई है। पता है जब तुम पैदा हुई थी, तो डॉक्टर के हाथ में थमाने के बाद तो तुम्हारी दादी घंटों तुमको एकटक देखती रही थी और दादू की तो मानो कोई लॉटरी निकल पड़ी हो ! पूरे हॉस्पिटल और ऑफिस में मिठाईयां, पैसे और गिफ्ट्स बटवा दिए थे! प्रांकुर चाचू तो विदेश से बहुत सारे खिलौने लेकर केवल तुम्हारे लिए ही आए थे और शिवा चाचू की तुम सबसे ज्यादा लाडली रही हो; तुम्हारे सोचने से पहले, हर चीज तुम्हारे लिए सामने होती है! कभी कभी मुझे लगता था, की इतना ज्यादा लाड-प्यार तुमको बिगाड़ देगा। पर ईश्वर की ऐसी कृपा है कि बचपन से ही तुम्हारी सादगी ने सभी का दिल जीत लिया। अनेकों बार तुम्हारे कारण मैं तुम्हारी मम्मा को तुम्हारा ज्यादा ध्यान और केयर करने के लिए डांट देता हूँ.. तो तुम्हारी मम्मा अक्सर ही मुझसे कहती है कि बेटी क्या आ गई, आप मुझे तो भूल ही गए। इस पर मैं मुस्कराकर उन्हें प्यार से सिर हिलाकर हां ही कह दिया करता हूँ! आखिर बिटिया होती ही ऐसी है। आज भी जब कहीं बाजार में जाते हैं। तो निगाह अपने आप उन चीज पर रुक जाती है, जो तुम्हारे लिए ली जा सकती है। और अब जब तुम हर बात को थोड़ा थोड़ा समझने लगी हो और अब मेरी ही मां सी लगने लगी हो ! और बिल्कुल उन्हीं के जैसे ही डांटने और प्यार भी करने लगी हो । कुकिंग और आर्ट का बेहद शौक है; संभवतः तुम्हारी दादी से ही यह चीज़ तुम्हारे अंदर आ गई है। अच्छा भी है.... आपकी इन हॉबी के कारण, दादी को भी आप पर गर्व रहता है। बचपन में हम सभी की उंगली पकड़ कर चलती थी, अब धीरे धीरे सभी का ध्यान रखने लगी हो... दादी अच्छे से सो रही है या नहीं.... छोटा भाई कहीं कुछ शैतानी तो नहीं कर रहा.... रात को सभी दरवाजे चेक करने जैसी कुछ-कुछ जिम्मेदारी निभाने लगी हो ! वैसे बस चले तो ईश्वर से प्रार्थना करूंगा कि तुम यूं ही हम सभी की प्यारी गुड़िया बनी रहो। तुम्हारा नाम प्रिशा (Gift of God)... वाकई मैं ईश्वर का दिया हुआ तोहफा हो आप !! आखिरी में बस यही कहूंगा कि तुम खूब ऊंची उड़ान भरना ! कभी भी थमना नहीं! जो मन में आए वही करना ! कोई तुमको कुछ भी बोले पर हमेशा अपने मन की ही सुनना और याद रखना; तुम्हारे हर निर्णय में तुम्हारे पापा तुम्हारे साथ हैं। और आपसे बहुत प्यार करते हैं....

Happy Daughter's Day Kukki

तुम्हारे पापा

LEARNING FROM TODDLERS

"Just as toddlers possess an innate ability to sense the arrival of their parents, we too can tap into our inner wisdom to sense the outcomes of our ventures. However, this requires us to preserve the purity of our heart and clarity of our mind, much like a child's untainted and curious nature."

This concept resonates with various philosophical and spiritual traditions, which emphasize the importance of cultivating a clear and pure mind to access higher states of consciousness and intuition.

The Toddler's Intuition

Toddlers possess a unique ability to sense their environment and the people around them. They can often detect the emotional state of their caregivers and respond accordingly. This intuition is thought to be an innate ability, unencumbered by the complexities and conditioning of the adult mind.

Preserving Purity of Heart and Clarity of Mind

To tap into our inner wisdom and sense the outcomes of our ventures, we must strive to preserve the purity of our heart and clarity of our mind. This involves:

- 1. Cultivating mindfulness:** Regular mindfulness practice helps to calm the mind, reducing mental chatter and increasing clarity.
- 2. Letting go of attachments:** Release emotional attachments to specific outcomes, allowing yourself to remain open and receptive to new possibilities.
- 3. Embracing curiosity:** Maintain a childlike curiosity, embracing the unknown and approaching challenges with a sense of wonder.
- 4. Practicing self-reflection:** Regularly reflect on your thoughts, emotions, and actions, acknowledging areas for growth and improvement.
- 5. Nurturing a positive mindset:** Cultivate a positive and optimistic mindset, focusing on solutions rather than problems.

Accessing Inner Wisdom

By preserving the purity of our heart and clarity of our mind, we can tap into our inner wisdom and sense the outcomes of our ventures. This involves:

- 1. Listening to intuition:** Pay attention to your gut feelings and intuition, trusting that they can guide you toward making informed decisions.
- 2. Trusting the process:** Have faith in the natural unfolding of events, trusting that the universe will support you in achieving your goals.
- 3. Embracing uncertainty:** Accept that uncertainty is an inherent part of life, and that it can often lead to growth and new opportunities.

By embracing these principles, we can cultivate a deeper sense of inner wisdom, allowing us to navigate life's challenges with greater clarity, confidence, and purpose.

वर्ष 2025 बोल रहा है

कुछ अनकहे से राज खोल रहा है। कुछ ख्वाब रह गए अधूरे, और कुछ हो गए पूरे। कुछ घर वीरान हुए, कुछ खुशियों के दामन से सजे, कहीं रिश्तो के बंधन है जुड़े कहीं जो गए वापस ना मुड़े मन के भावों को बोल रहा है वर्ष 2025 कुछ बोल रहा है। चाहता है हर कोई परिवर्तन, पर बदलाव की पहल किसने की? चाहता है हर कोई खुशियाँ, पर गर्मों से सीख किसने ली?

कुछ गहरे राज खोल रहा है वर्ष 2025 कुछ बोल रहा है। आओ निर्ममता से उर में छिपी हर बुराई को मिटा दें, आओ मधुरता से मन में दबी अभिलाषाओं को सुलगा दें, हर नन्ही अनाथ बाहों को ममता की गोद में छुपा लें, गृह विहीन लोगों का यह सारा जग आशियाना बना दे। बंदूक की गोलियों को कई दूर दफना दें, सिगरेट की लाशों को हमेशा के लिए जला दें, खुशियों की झोली भरने के लिए बोल रहा है, वर्ष 2025 कुछ बोल रहा है। इस नूतन नवल वर्ष को नव अरमान से सजाना होगा, प्रेरणा की ज्योत जलाकर इसे यादगार बनाना होगा, नफरत की आग से घरों को नहीं बुराइयों को जलाना होगा, घर दहेज से नहीं बेटियों से सजाना होगा, नशा शराब का नहीं कर्म का चढ़ाना होगा, चोला परिधानों का नहीं संस्कारों का पहनना होगा, सारे जग को प्रेम वाटिका से महकना होगा, आशाओं की बोली बोल रहा है, वर्ष 2025 कुछ बोल रहा है।

नववर्ष - नईआशा

नए वर्ष में नई पहल का आगाज़ होना चाहिए
नए वर्ष का उगता सूरज सुनहरा होना चाहिए।

अनसुलझी जो रही पहेलियाँ,
हल उनका हर हाल में होना चाहिए।

नई उमंगे, नई तरंगे,
सुर और संगीत अब एक होना चाहिए।

ख्वाहिशें अपनी हो या अपनों की,
मुक़म्मलहों, यह जज़्बा होना चाहिए।

उत्साह न गिर पाए किसी का,
आशाओं का नव सृजन होना चाहिए।

सपनों को सच करना है अब,
आँखों में वो चमक होना चाहिए।

दुआओं की दौलत साथ हो हमेशा
किरदार शानदार होना चाहिए।

शुभकामनाएं नव वर्ष की,
आने वाला हर पल मंगलमय होना चाहिए।
