Prefectorial
Bodies 2026–27
during the
Investiture
Ceremony.

PREFECTORIAL BODY

BHOOMI HOUSE

Soaring with Earth's might, Bhoomi House symbolises stability, growth, strength, and grounding. It inspires students to be dependable, patient, responsible, and resilient. It also fosters community, belonging, teamwork, healthy competition, and school spirit.

GAGAN HOUSE

Soaring towards excellence, Gagan House embodies unity, resilience, and limitless potential. It inspires students to reach for the skies, encouraging every individual to grow, lead, achieve greatness, and rise together through teamwork, determination, and a shared spirit of excellence.

VAYU HOUSE

Vayu House embodies perseverance, strength, and freedom. It inspires students to discover their potential, build resilience, develop unique talents, and grow into confident, capable and compassionate individuals, while laying the foundation for tomorrow's strong and inspiring leaders.

NEER HOUSE

Neer House nurtures transparency, adaptability, calmness, emotional intelligence, and compassion. Through a holistic approach, it inspires students to embrace change, understand others, and develop into balanced, well-rounded, and empathetic individuals, prepared to face life's challenges.

CNMUN

Across 16 committees, delegates showcased exceptional research, critical thinking, negotiation, and leadership through engaging in debates, moderated caucus, crisis simulations, and press conferences. As committee sessions concluded, delegates presented thoughtful resolutions that reflected teamwork, consensus-building, and a shared commitment to addressing global challenges.

CNMUN empowered delegates to debate global issues, enhance leadership and communication skills, and embrace the spirit of diplomacy and global citizenship.

CIMUN

Our school proudly won the Best School Trophy at the II Edition of CI MUN – JANTANTRA 2026 . Our delegates excelled across committees, earning several individual accolades and showcasing exceptional leadership, diplomacy, and communication skills.

**CNMUN NURTURES DIPLOMACY, CRITICAL THINKING, COLLABORATION,
AND COMPASSION—THE SKILLS THE WORLD NEEDS TODAY.**

EVENTS

ENVECOGNIZANCE

Our school proudly organized the School Enterprise Challenge & Campus Company –ENVECOGNIZANCE , a vibrant three-day entrepreneurial fair held from July 23-25, 2026 at the Assembly Quadrangle.

Sahodaya Inter-School Debate Competition

Our school proudly hosted the Sahodaya Inter-School Debate Competition 2026, providing a platform for 22 participating schools to showcase critical thinking, confident expression, and intellectual excellence.

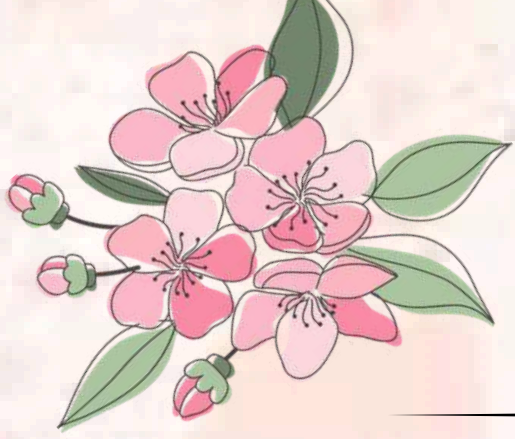

Workshops

Ms. Sonal Pathak, PGT (AI), presented a case paper at the CBSE District Level Deliberation (DLD) Workshop on Computational Thinking and Artificial Intelligence.

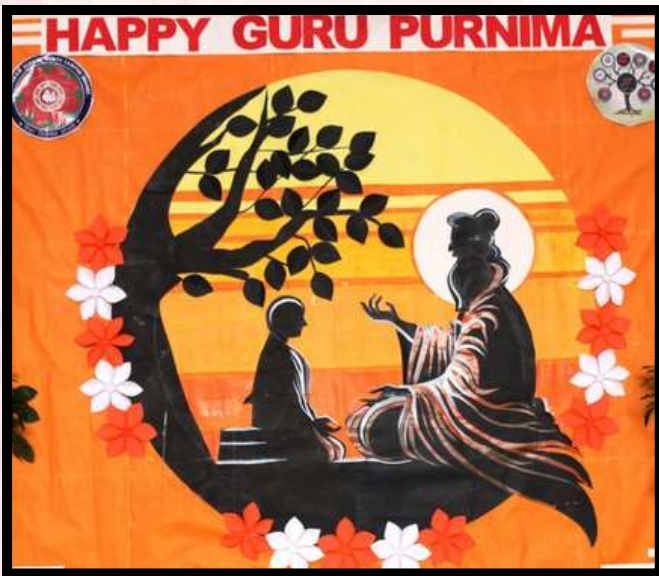

Ms. Abhilasha Purushothaman, Ms. Mukta Petare, Ms. Pallavi Makhija, and Ms. Fatema Matkawala—proudly represented the Choithram Group of Schools at the World Inclusion Congress 2026, held in New Delhi .

CELEBRATIONS

Our Montessori little ones had fun exploring rain, rainbows, and rainy-day essentials through joyful learning and discovery!

Guru Purnima celebration with love, respect, and gratitude.

Our young storytellers of Grades III-V from different houses, mesmerized the audience with their confidence, creativity, expressive narration, and command over the Hindi language.

Our little ones charmed everyone with their confidence, clear pronunciation, and expressive performances at the Hindi Recitation Event.

Students of Classes III - V gathered in the morning assembly to celebrate Van Mahotsav.

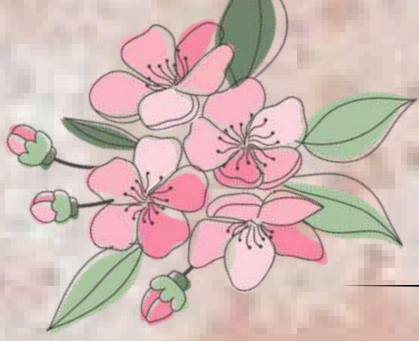

Our Grade II students conducted a wonderful special assembly on the theme "Captain Recycle to the Rescue," spreading the message of environmental responsibility through their enthusiastic performances.

Senior Montessori students enthusiastically participated in an International Dimension activity by creating the Indian and Japanese flags through paper pasting. 🇮🇳 🇯🇵

As part of the Intra-House Storytelling Mentorship Programme, our Class VIII students stepped into the role of mentors, guiding their juniors from Classes III-V in the art of storytelling.

Felicitations

At Scriptorium – Creative Writing, held at Emerald World School, Indore, Jasnoor Kaur and Aryana Gupta secured the Second Runner-Up position at the Late Sunita Singh Festival of Expression, showcasing exceptional creativity and literary talent

Both the Under-19 Boys' and Girls' Chess Teams clinched First Position at the Inter Choithram Chess Competition. The winning Boys' team comprised Hardik Ajmera, Darsh Shah, Arnav Singh, and Samriddh Koshta, while the Girls' team included Narayani Phadke, Priyashi Rath, Kashvi Shrivastava, and Tejasvi Bindal.

SOF

Our school felicitated its SOF 2025–26 achievers for outstanding academic excellence. Students secured impressive zonal ranks in Commerce, Social Studies, English, and Hindi Olympiads. Their achievements brought pride and honour to the school.

Jahnvi Sharma (Class XI) excelled at the Bharat Nritya Mahotsav 2026, held in Goa, winning the Duet Kathak (Open Age Category), securing First Runner-up in Solo Dance (Senior Category), and receiving an International Merit Certificate for her exceptional performance.

Paridhi Parihar (Class VIII) delivered a stellar performance at the HH Maharaj Tukoji Rao Puar Senior Trophy – 2nd District & Inter-School Shooting Championship, securing 2 Gold, 1 Silver, and 1 Bronze medal across various categories.

Ashutosh Singh Chouhan (Class XI-D) secured Second Position in the Inter Choithram Photography Competition.

Kavya Sharma (Grade XI) secured First Position in the Poster Making Competition at Anveshan 2025, winning ₹5,000 and qualifying to represent Madhya Pradesh at the national level. She also achieved 11th Rank in the Mixed Media Art Category at the National Kalakriti Art Fest, earning a ₹21,547 cash prize and a ₹34,891 scholarship for advanced art courses.

Our school proudly felicitated Anika Tripathi (V-D), Advik Jain (IV-C) and Ananya Tripathi (III-C) for their achievements in the 21st Open state UCMAS competition.

The students of the Visual Art Department showcased exceptional artistic brilliance at the Art of Creation Painting Competition & Exhibition, organised by Kasturba Gandhi Mahila Kalyan Kendra, earning accolades across multiple categories.

Tanush was honoured for winning the Silver Medal at the Open District Karate Kumite Championship 2026, while Omansh Sahu was felicitated for securing the Second Runner-Up position in the QMAC Abacus and Mental Arithmetic Competition.

Moksh Shrivastava (Class VIII-D) secured First Position in the Inter-School Poster-Making Competition, organised by Tirathbai Kalachand School during its 49th School Raising Day Celebrations

Shrinika Salviya (Class III) secured Third Prize at the Art of Creation Painting Competition & Exhibition, showcasing remarkable creativity and artistic talent.

ASSEMBLIES

The Awake Club conducted a thoughtfully curated assembly that beautifully blended knowledge, awareness, and value-based learning. The highlight of the programme was a powerful Nukkad Natak on "Say No to Junk Food," in which students delivered a compelling message about the importance of healthy eating through an engaging street play.

The students of grade X conducted a meaningful morning assembly to commemorate the Egypt Revolution Day (National Day), encouraging the entire school to reflect on the universal values of freedom, unity, peace, democracy, and global citizenship.

Students of Grades III to V gathered in the morning assembly to celebrate Van Mahotsav. The celebration inspired students to care for nature and understand the importance of trees.

Conducted an inspiring Internationalism Assembly, highlighting the values of global citizenship and cultural appreciation.

Participated in E-Shapath: "नशे से दूरी है जरूरी 2.0", an initiative by the Police Commissionerate, Indore, reaffirming our commitment to build a healthy, safe, and drug-free society.

We celebrated International Friendship Day with great enthusiasm and joy. A special assembly by grade V C highlighted the importance of building strong and caring relationships.

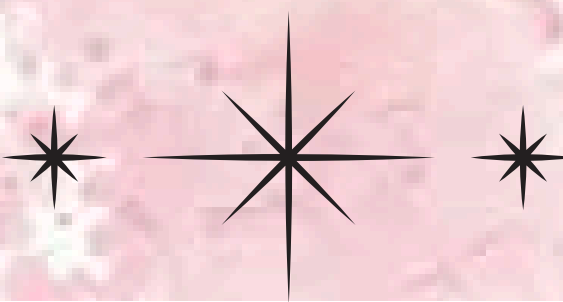

The OUTREACH Club conducted a creative Poster Making Activity for students of Classes III to V on July 4, 2026.

WHEN ELEGANCE MEETS GRACE

Beauty has always been admired, but we rarely stop to ask what it truly means. Is it the way we look, the clothes we wear, or something much deeper??The truth is, beauty is not what others see in us. It is the quality that we recognize within ourselves. And when this inner beauty meets elegance, something truly special is created.....Many people believe that elegance means attending grand parties, wearing expensive outfits, or posting a perfect picture. Others think it means staying quiet at home. But real elegance is neither of these. It is balanced. It is knowing what to do, when to do it, why to do it, and where. It is grace in action.....Grace is often misunderstood. Those who do not understand grace may call it "too good to be true." But grace is not a show. It is the courage to take off the mask we wear for the world and to present our authentic selves. The greatest magic happens when the world calls a soul "ugly," and that soul still chooses to see itself as beautiful. This magic does not come from wands or from what we wear. It comes from the way our soul treats our own body and mind.....A ball gown and Cinderella shoes may look elegant, but they do not define you. They only define your wardrobe. You define yourself.....When grace meets beauty, it creates an unforgettable presence. Beauty may be the physical attraction that catches the eye, but grace is the emotion that touches the heart. When the two are balanced, they form what can only be called understated refinement — a quiet confidence that speaks louder than any fashion trend.....Beauty is seen by others, but it is felt within. Grace and elegance are sensed by others, but they are cherished within. Together, they make a person timeless, distinct, and truly amazing.....In a world that is always chasing trends, let us remember to chase characters instead. Because in the end, it is not what we wear that makes us elegant. It is who we are.

SOMEWHERE BETWEEN

*We are not children anymore,
Yet grown-ups? Not quite yet.
Somewhere between the school bell rings
And dreams we haven't met.
We carry books, unfinished work,
And questions in our head,
A thousand plans for future days,
And things we should have said.
We laugh too loud in corridors,
Then panic before a test,
We say, "This time I'll study hard"
And somehow do the rest.
We dream of places far away,
Of names the world will know,
Yet still find comfort in the friends
Who make the school bell slow.
We are learning how to stand alone,
While still needing someone near,
Trying to understand the world
While figuring out ourselves here.
Maybe growing up is not a road
With every answer clear,
Maybe it's simply moving on
While carrying who we were.
So here we are, not at the start,
And nowhere near the end
Just somewhere in the middle,
Still learning how to bend.
With dreams ahead and doubts behind,
With courage, fear, and cheer.
We may not know where life will lead,
But we are getting there.
And perhaps that's what these years are for!
Not knowing what to do,
But finding little pieces of
The person inside you.*

SIDDHANT SAXENA

ALUMNI CONFLUENCE

Hello guys, My name is Tanmay Gohil and I came to this school when I was in 3rd (2005-06) And this school gave me the best memories of life, best friends and best teachers whom we miss a lot. I wanna say you that study well but do the work what your heart wants. Not what this society or your parents want. And there is no successful life without ups and downs. So don't panic when your time is not going well. Other than that I am a civil engineer and for the past 6 years I am working with my father. But at the age of 25 I heard a rap duo artists and they inspired me to be one. Today, I am almost 29, and after 3 years of hardwork, I kill every cypher, every event I go in and I am also in the organization team. I am finally getting what I want and this is because of my hardwork and belief and with the support of my friends. I am nothing without them. So please choose your friends and mentors wisely and never hesitate to say about things you love. The more you express the more you will love your life. All the best for your life ahead. Special thanks to Neeta Ma'am for everything.

TANMAY GOHIL

Choithram School North Campus:

My Foundation for Life. When I look back at my years at Choithram School North Campus, I realize the school gave me far more than an education — it gave me the confidence to lead, the curiosity to explore, and the discipline to turn ideas into action. From the classrooms where I first discovered my love for problem-solving, to the stage where I anchored the Annual Function, every experience at school quietly shaped the person I am today. Being appointed Head Girl was one of the most defining chapters of my school life. It taught me that leadership isn't about authority, it's about responsibility — showing up for your peers, listening carefully, and setting an example even when no one is watching. That lesson has stayed with me well beyond graduation. School also opened doors I hadn't imagined for myself. Serving as Event Head for the Inter-School Innovathon Exhibition, and later going on to chair sessions at CNMUN, pushed me to think on my feet, communicate with clarity, and manage real responsibility under pressure. Winning recognitions like 1st Rank in the Questt Quiz and scoring 97/100 in English reminded me that consistent effort, not just talent, is what builds real achievement. Today, I am pursuing an integrated B.Tech and M.Tech in Information Technology at the International Institute of Professional Studies, DAVV, Indore, with a growing passion for software development, AI, and entrepreneurship. Through internships in web development and full-stack technologies, and by building projects like an AI-powered travel planner and a food recommendation app, I've tried to carry forward the same spirit of curiosity and initiative that Choithram School first nurtured in me. I owe a great deal of who I am — my confidence to lead, my hunger to learn, and my belief that big dreams are worth chasing — to the years I spent within these walls. To the teachers who believed in me and the school that gave me my first stage, thank you for shaping not just a student, but a future changemaker.

STONE TO A CHILD'S CONFIDENCE.

Nurturing Minds and Hearts: Cultivating a Safe and Healthy School Ecosystem

Education extends far beyond textbooks, timetables, and examinations. At its core, a school is a second home a sanctuary where young minds are nurtured, character is shaped, and lifelong foundations are built. For this transformation to truly happen, the environment must be more than just functional; it must be a secure, vibrant ecosystem where every child feels safe, valued, and inspired to thrive.

A truly wholesome school environment rests on three interconnected pillars that support the holistic development of every student.

First is emotional safety and belonging. True learning happens only when fear is removed. A healthy school cultivates a culture of kindness and inclusivity where bullying has no place, and every child regardless of their pace of learning or personality feels a deep sense of belonging. When children know their voices are heard and respected, they gain the confidence to express themselves authentically and take creative risks.

Second is physical well-being and care. From safe, well-ventilated classrooms and secure play areas to mindful physical education, a student's physical health directly impacts their academic and social engagement. Encouraging active play and healthy lifestyle habits ensures that children have the boundless energy they need to explore the world around them.

Third is mental wellness and balance. In a fast-paced world, children face their own unique pressures. A supportive school environment prioritizes mental health by encouraging open conversations, teaching emotional regulation, and balancing academic rigor with joyful play, arts, and quiet reflection.

Creating such an environment is a collaborative journey. It requires a seamless partnership between dedicated educators, mindful parents, and the school administration. When home and school speak the same language of encouragement, empathy, and positive reinforcement, children receive consistent support that anchors them through every milestone.

Ultimately, when we build schools that champion safety, health, and emotional warmth, we do more than just educate students; we empower future generations of compassionate, resilient, and joyful individuals. Let us continue to nurture spaces where every child can bloom safely, boldly, and beautifully.

TEACHERS' CORNER

Interesting Mathematics: The Magic Behind Everyday Life

"Mathematics is not just about numbers—it is about discovering patterns, solving mysteries, and understanding the world around us." When we hear the word Mathematics, many of us immediately think of calculations, homework, or exams. But mathematics is much more than that. It is a fascinating subject that hides in every corner of our lives, making the ordinary truly extraordinary.

Did you know that honeybees build their honeycombs using perfect hexagons because this shape stores the most honey while using the least wax? Have you ever noticed the beautiful spiral in a sunflower, a pineapple, or a seashell? These patterns follow mathematical rules found in nature, showing that mathematics is nature's own language.

Sports are another exciting example of mathematics in action. Every run scored in cricket, every goal in football, and every lap completed in athletics involves speed, distance, angles, timing, and strategy. Coaches use statistics to improve players' performances, while athletes rely on mathematical thinking to make quick decisions during a game.

Have you ever wondered how your favourite video games work? Behind every exciting level are mathematical formulae that control movement, scoring, graphics, and animations. Even the GPS that helps us reach our destination uses complex mathematical calculations to find the shortest route.

The best part about mathematics is that it teaches us valuable life skills. It develops logical thinking, creativity, problem-solving abilities, patience, and confidence. Every puzzle solved and every challenge completed strengthens our minds and prepares us to face real-life situations.

Mathematics never asks, "Are you ready?"

It simply smiles and says,

"Challenge accepted?"

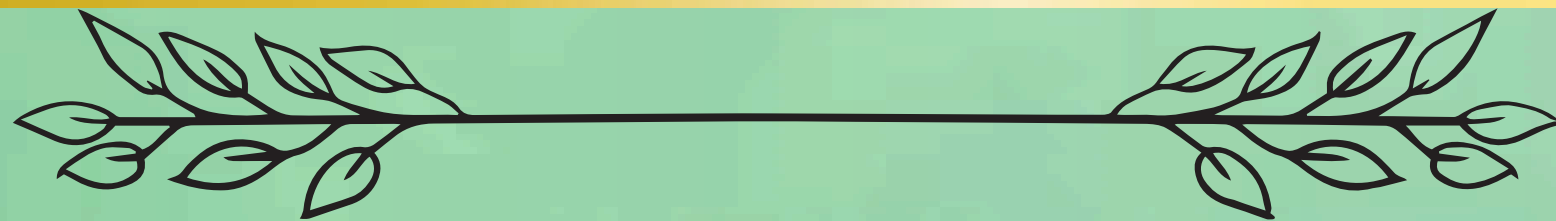

As Galileo Galilei said, "Mathematics is the language with which God has written the universe."

Let's embrace mathematics with curiosity, confidence, and a smile—because every number has a story, every pattern has a purpose, and every problem has a solution waiting to be found.
