KPI NAME	KPI Def. No.	KPI DEFINITION	
Increase students' proficiency in writing understanding- and knowledge-based questions in right language and order.	1	Improving students' knowledge, understanding and comprehension of partnership formation and its accounting process, concept of goodwill, reconstitution of partnership firm, share issuance, forfeiture, and reissue, placement of head and subheads of various items of balance-sheet, incomestatement items, and other activities of cash flow statement.	
skill of doing fast Calculation to attempt the question within the time	2	To improve efficiency of students in doing speedy calculation of new profit sharing ratio, sacrificing and gaining ratio.(fraction calculations), additions and substractions	
skill of attempting Application based questions	3	to improve pupils' abilities to produce work that is appealing, such as solving questions in the appropriate formats and formulae, When profit was not offered for the past adjustment of IOD and IOC, students should be able to link their knowledge, understanding with its application. Guaranteed profit in the case of a loss, Partners loan account in the case of a specific mid-year date, share forfeiture amount in case of prorata allotment, specific order of Cash flow statement for calculating profit from operating activities	

Irregularity, Casual approach towards studies is the major Behavioural issues amomng the students to cope up with the subjects	4	To cultivate in students a mindset that recognises the need of adhering to deadlines, To motivate students to attend class regularly and on time, and to practice subjects in an orderly, systematic, and consistent manner

ANNUAL PEDAGOGICAL PLAN (C

Al	INUAL FEDAU	3 0GICAL PLAN (C
WHERE ARE WE NOW? (scale & description)	KPI GOAL	KPI LIMIT
30% of students employ the proper terminology and order when writing.	40%	±2%
50% of pupils spend long time on calculations.	50%	+-2%
30% students do not prepare the formats and were unable logically link their knowledge and understanding with application part of the question.	20%	±2%

25% of students were regular, practising questions in an orderly manner, and meeting deadlines.	

Class XII & Subject- Accountancy)

lass XII & Subject- Accountancy		
WHAT WE NEED TO DO?	LP Numbe r	HOW WILL IT BE ACHIEVED
We need to increase the practice for understanding and knowledge based questions.	LP-1	1.Students will be given work sheets (MCQ-style questions) that are based on understanding and knowledge-based questions. 2. A variety of case study-based questions will be provided to help them get more knowledge and comprehension.
we need to tell some tricks and ways to do fast calculation	LP-1	students will be demonstrated few of the ways where they can learn tricks for fast calculation, how the question can be attempted.
Regular and rigrous practice will be taken from students	LP-1,	students will be given more application based question sheets for practice and will be discussed in class.

we need to encourage and motivate the students	1.Students will be encouraged and praised even for a small right work.2.More Practice tests will be conducted, which help in monitoring student's progress. 3. Pair them with a study buddy i.e encourage peer group learning.4. Better learning environment will be created
